FREE TUTORING?

When you write a check to pay your college tuition, you are not just paying for your courses, you are paying for the services that are provided for all HACC students. One of these essential services is the tutoring provided in the Brossman Learning Center, located behind the library.

While there is no cost to you when you frequent the learning center, do not think of tutoring as free, think of it as a service you have already paid for. You would not buy a ticket and skip the show, so make use of the best resources your money has bought and visit the learning center often.

ACADEMIC COACHING

Academic Coaching is a voluntary support service for students who are referred by their counselor/advisor or professor, placed on academic probation, or motivated to improve their academic and self-management skills.

Academic coaches assist students in determining their academic concerns and identifying resources, such as tutoring, that are available to help them.

Academic coaches take a personalized approach with each student. Coaches assist students in developing action steps and utilizing tools to help overcome barriers to their academic success. Sessions typically focus on time management, organizational skills, test preparation, and study strategies.

All sessions are conducted by appointment or during open office hours and are confidential.
