Finding Articles Assignment #1

ENG 102 – Keiter

For this assignment, you need to research and find two articles (no older than July 2016) about higher education. Both articles should discuss the same topic (for example, tuition). You should be searching for the articles through the library’s databases not through the internet search engines. You need to select two articles on the same topic, one from a popular source (such as Newsweek) and one from a scholarly source (such as Foreign Affairs).

Once you have found two articles, you need to write a summary for each of them. After that, you will need to briefly compare and contrast the two articles. Finish the assignment with a Works Cited page. Use MLA format throughout. It is highly recommended that you carefully annotate both articles before you attempt to summarize them.

In Brief:

- MLA format
- Include a works cited page
- Minimum of 500 -750 words
- This assignment is due through the course Dropbox on or before February 13, 2017.
- Worth 50 points
