Evaluating a Web Site
Are you finding QUALITY information?

The CRAAP Test!

- **Currency**
  - Is the information too old, is it up-to-date, or are you not sure

- **Relevance**
  - Does it fit your needs?
  - Was it intended for you, or written for another audience? (example: children, scientists).

- **Authority**
  - Where is the information coming from?
  - Is the information coming from experts? Do you trust them?
  - Could you contact them somehow, if you needed more information?

- **Accuracy**
  - Is the information reliable, truthful, and correct?
  - Can you tell where the information is coming from?
  - Do you see spelling or grammar errors? Is the website unprofessional?

- **Purpose**
  - Why does this Website exist?
  - Is it there to inform and educate?
  - Is it trying sell you or convince you of something?
