Hints for how to read a professional research article:

Please keep in mind the following questions when analyzing your articles:

1. Why did they do the study? What was their purpose?
   (Introduction Section and Hypothesis)

2. What did they do? How did they do it?
   (Methods, Procedures, and Materials Sections)

3. Who did they do it with?
   (Participants Section)

4. What did they find?
   (Results Section)

5. What does it mean? What is it's applicability to the real world? What are the limitations?
   (Discussion, Conclusions, and Limitations Sections)
