Part One:

Research sexual education in Europe, Asia, and African countries. Compare and contrast the information and outcomes. How do they compare with each other? How do they compare with the U.S.? What factors can account for any differences? Use research from at least 3 APA peer-reviewed journals to support your findings and impressions.

Part Two:

Research historical/cultural views on sexuality and sexual behavior from European, Asian, and African cultures. You may reference ancient times. What has remained the same? What has changed? Explain possible reasons for any changes or lack of change. Use research from APA peer-reviewed journals to support your views.

Remember to cite all sources in APA style
