Chemistry Article Critique Criteria
(50 points each)

You will be required to submit two chemistry article critiques with oral summaries during the semester. The due dates are on the class schedule. These assignments will constitute 5% of your grade.

Requirements:

- Cover page: Name, Date, Citation, Word count (2 point)
- The typed paper (minimum 500 words) will be submitted via Dropbox. The due date is listed on the class schedule.
- The article must be from a recent scientific publication – no older than two months of the assignment due date. (3 points)
- Detailed summary of the article (20 points)
- Analysis of the article. A paragraph of each bullet point below. (5 points each)
  - Relate the content to how our world is being impacted.
  - Discuss the environmental and societal issues concerning this topic.
  - Describe the effects on the quality of life.
  - Assess how this topic influences you personally.
  - Conclude with your opinion on the importance of this topic.

The typed paper is to be submitted to Dropbox as a Microsoft word document.

If a typing program is needed, it is available from Google docs/Microsoft office through HACC. For further assistance, please go to the ASK desk in the Learning Commons.

A late assignment will be accepted the next day with a 10% grade deduction.

**If the paper is not submitted by that time, it will be a ZERO.**

Article oral summary (10 points) – Have notes available to present an oral summary.
